

Garden Name

Backyard Orchard

Date

12/04/2019

Name

Rose Ann Stepp

Email

stepproseann@gmail.com

Soil**Fertilizers**

this is what we used for the raised bed for blueberries
1 ft deep of pine bark mulch
9 in of combined pine bark mulch, peat moss, and vermiculite (1/3, 1/3, 1/3)

Compost

)

Mulch

mulched most of beds - not citrus or blackberries. Will mulch black berries soon.

Plants**Added Plants**

moved beauty berry plant that was growing under a citrus tree to a corner of the citrus
density bed
planted Conte Pear
installed a raised bed for blueberries that will be planted in Feb

Removed Plants

Potted up a papaya tree to see if it would survive in the greenhouse over winter

Ailing Plants

Watching a papaya tree to see if it can survive the cold
